Business Problem

To predict the outcomes, trends, or expected future behavior of business, industry sector, or the economy using statistics.

OBJECTIVE

The goal here is to make the companies and businesses to understand and analyse the market to lower their expenses and enhance profits along with helping the investors in identifying purchasing and selling patterns by using Modern Data Analytics.

FORECASTING

In simple terms forecasting means, “estimation or prediction of future”.

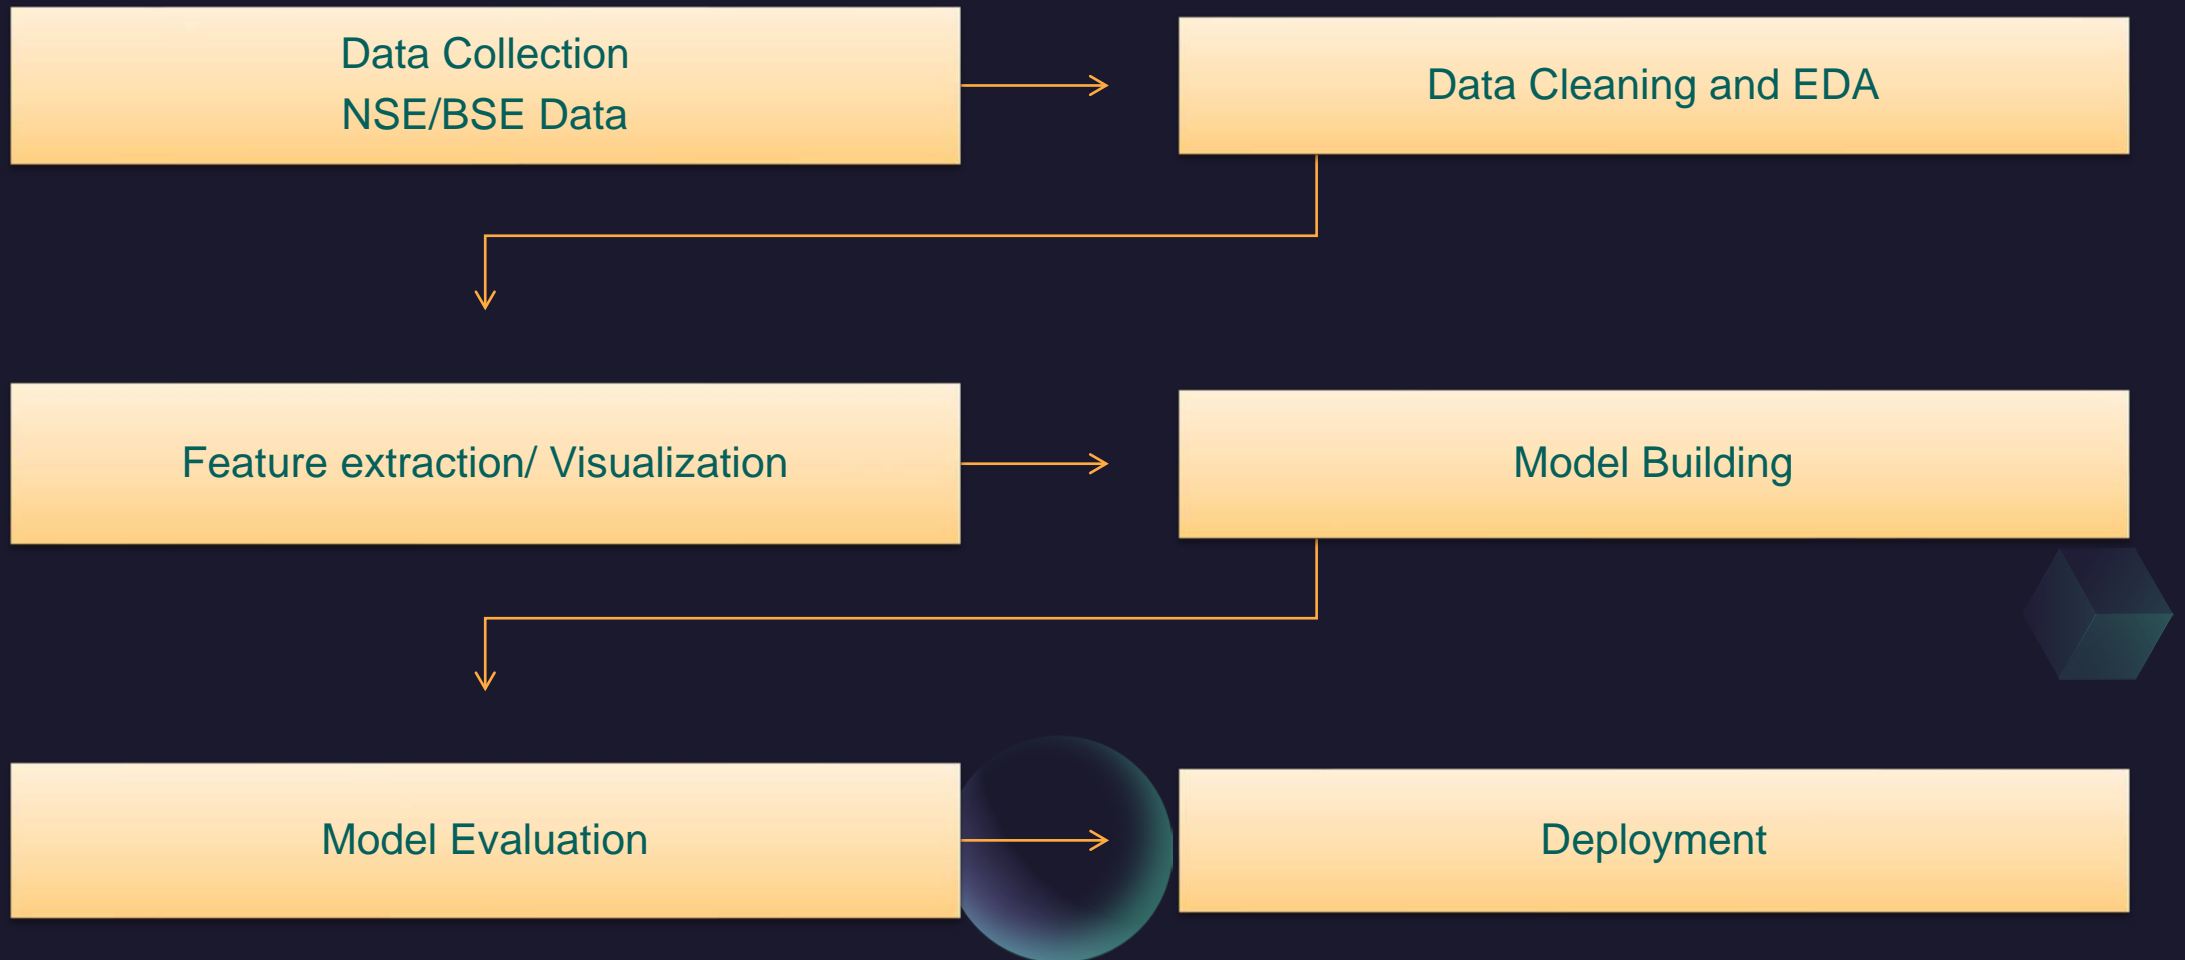

Forecasting is an operational research technique used as basis of management planning and decision making.

Forecasting is a systematic guessing of the future course of events.

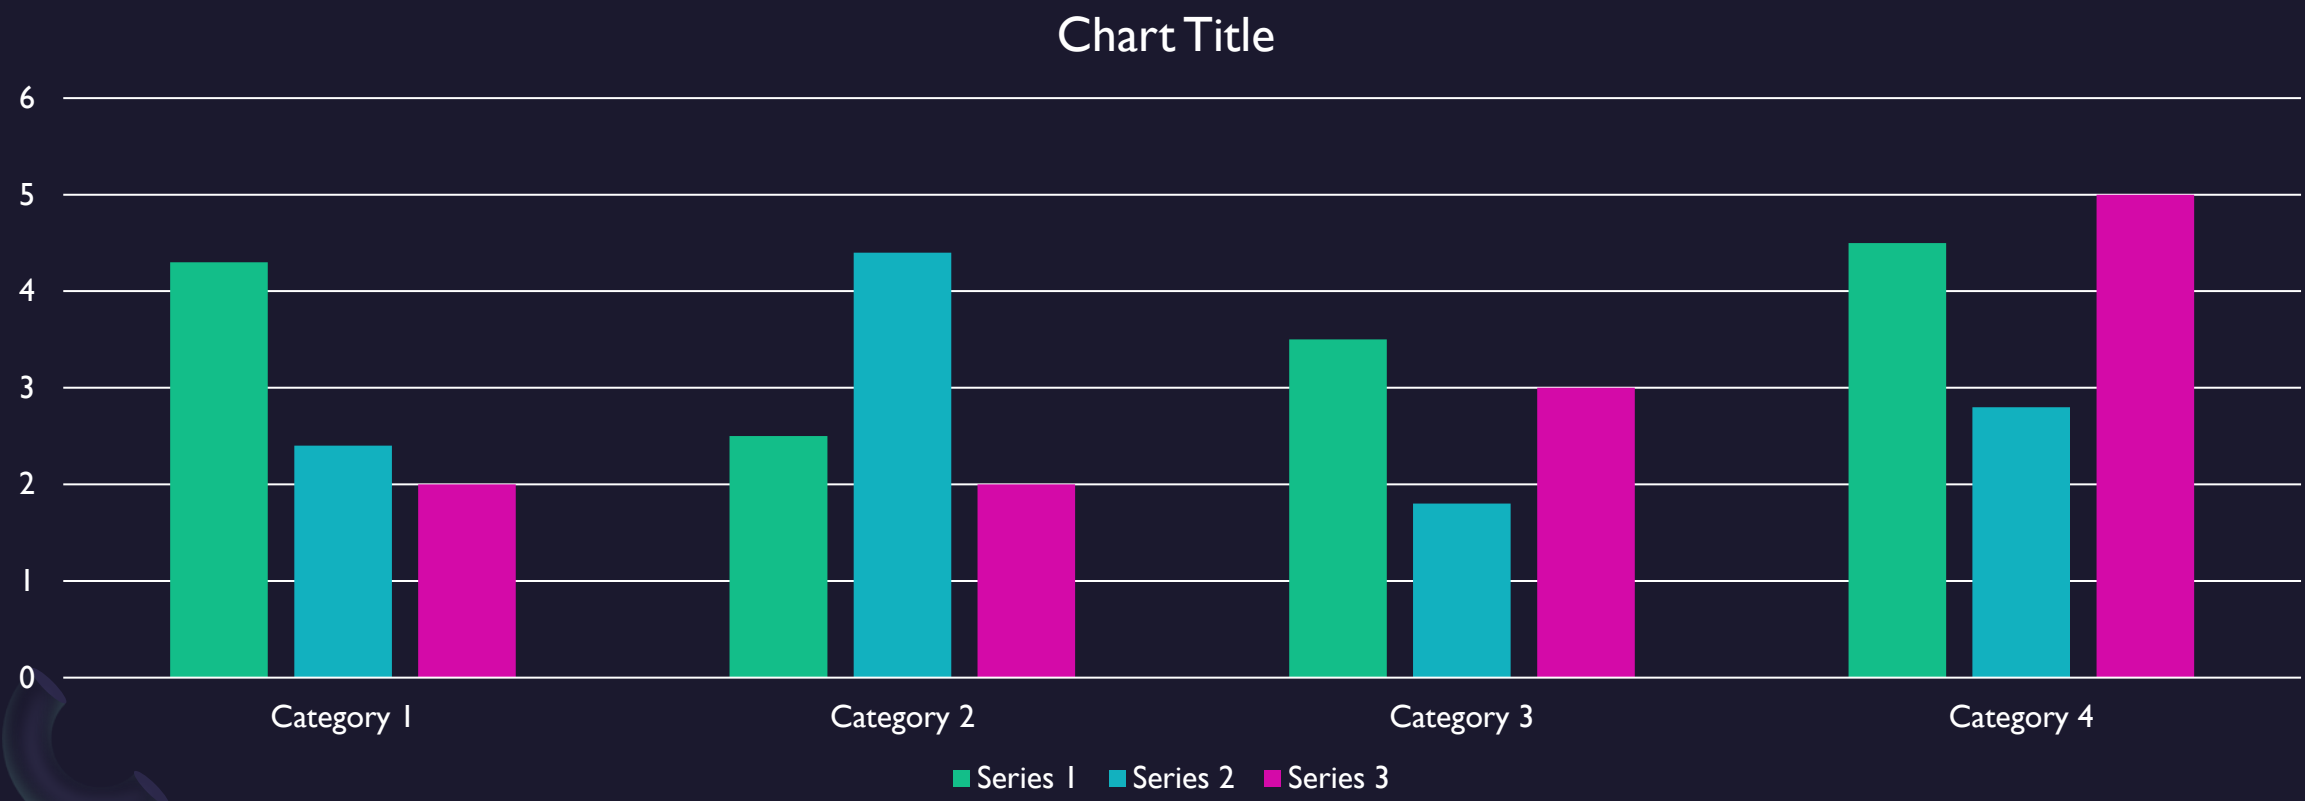

Forecasting provides a basis for a planning.

According to Henry Foyal, Forecasting includes both accessing the future and making provision for it.

Timeline

To start a presentation, go to the Slide Show tab, and select From Beginning.

During your presentation, the speaker notes are visible on your monitor, but aren't visible to the audience.

If you don't see the Notes pane or it is completely minimized, click Notes on the task bar across the bottom of the PowerPoint window.

To display Presenter view, in Slide Show view, on the control bar at the bottom left select the three dots, and then Show Presenter View.

The Notes pane is a box that appears below each slide. Tap it to add notes.
